PVC COVERS FOR TENTS, PAGODAS AND STAGES, MADE TO MEASURE

Manufacturers in Málaga since 1998. Made-to-measure and replacement covers for any structure, and PVC fabric by the roll, sold direct from the factory.

MANUFACTURER SINCE 1998

CLASS T2 · UNE-EN 15619

SHIPPING TO SPAIN AND EUROPE

MANUFACTURING PVC COVERS SINCE 1998

Plastold has manufactured PVC covers for tents, pagodas and stages since 1998 at its own premises on the Alameda Industrial Estate in Málaga. We design and make every cover to measure, and sell it direct from the factory, with no middlemen.

We produce **made-to-measure covers** (roofs, side walls and gables), **replacement covers** for structures of any brand and **PVC fabric by the roll** for manufacturers, fabricators and installers. We do not sell structures: we make the cover that fits yours.

Making PVC covers in Málaga

Bespoke

Every cover is made to order

T2

Reaction-to-fire class under UNE-EN 15619

Europe

Shipped from the factory across Spain and Europe

WHO WE WORK WITH

Tent hire companies, erectors and installers, event organisers, hospitality, estates and hotels, local councils, industry and agriculture.

We do not hire out tents. We make and sell the covers, including to the companies that hire out and put up tents.

Real project: PVC grandstand roofs and 288 tent side walls, made in Málaga for a major motorsport event in Madrid.

01

COVERS FOR INDUSTRIAL TENTS

Roofs, side walls and gables for storage tents and fabric warehouses, for seasonal or permanent use.

- Storage, logistics, building sites, workshops, machinery and farms.
- You or your supplier provide the structure; we make the cover.
- 850 g/m² fabric for large spans; 650 g/m² for side walls or seasonal use.
- Options: side walls, access curtains and a translucent roof.
- Covers to the same size if you extend the tent.

[PLASTOLD.COM/CARPAS-INDUSTRIALES](https://plastold.com/carpas-industriales)

COVERS FOR TWO-PITCH MARQUEES

Roof, side walls and gables for metal portal-frame marquees with a pitched roof: events, hospitality, trade fairs and storage.

- A full cover set, or just the replacement pieces for the frame you already have.
- Covers by module or bay, also for extensions.
- Opaque walls, window walls or clear PVC walls; access curtains and joining gutter.
- 650 g/m² fabric for frequent set-ups or 850 g/m² for large spans and fixed installations.

[PLASTOLD.COM/CARPAS-A-DOS-AGUAS](https://plastold.com/carpas-a-dos-aguas)

02

TRANSPARENT COVERS

Clear PVC roofs and enclosures for weddings, hospitality terraces and winter events with a view.

- Transparent roof, transparent walls and windows, or an opaque roof with transparent enclosures.
- Large panels welded to the exact size of each tent.
- Transparent walls for tents of any brand, with their own fixing system.
- UV protection and anti-mould treatment; clean with water and mild soap.

[PLASTOLD.COM/CARPAS-TRANSPARENTES](https://plastold.com/carpas-transparentes)

03

04

COVERS FOR EVENT & WEDDING TENTS

For estates, hotels, caterers, event organisers and hire companies: made-to-measure covers for your own tent.

[PLASTOLD.COM/CARPAS-PARA-EVENTOS](https://plastold.com/carpas-para-eventos)

[PLASTOLD.COM/CARPAS-PARA-BODAS](https://plastold.com/carpas-para-bodas)

- New or replacement covers for two-pitch marquees, pagoda, transparent and Bedouin tents.
- Made to measure in any width and length.
- 650 g/m² fabric for frequent set-ups; 850 g/m² for permanent installations.
- Class T2 reaction to fire, with the certificate supplied with the material.
- Plain colours, mainly white, to suit any decoration.

05

COVERS FOR PAGODA & BEDOUIN TENTS

Roofs and walls for pagoda tents at weddings, terraces, hotels, beach bars and fairs. Plus stretch covers for Bedouin tents.

[PLASTOLD.COM/JAIMAS](https://plastold.com/jaimas)

[PLASTOLD.COM/CARPAS-BEDUINAS-STRETCH](https://plastold.com/carpas-beduinas-stretch)

- A full cover set for your frame, or just the replacement roof and walls.
- Opaque walls or walls with a clear window, and gutters to join several pagoda tents.
- Covers for small terrace pagodas or modular sets for large events.
- Stretch covers for Bedouin tents, tensioned over poles, for gardens, beaches and uneven ground.
- The stretch fabric is also sold by the roll.

OWN OR HIRED TENT?

An estate, hotel or catering company with several weddings each season needs its tent available at all times. We do not hire out tents: we make your covers to measure, so you recoup them event after event.

TRANSPARENT ROOF?

A clear PVC roof exposed to the sun heats up more than an opaque one. That is why many customers combine an opaque roof, usually white, with transparent walls and windows and good ventilation.

06

STAGE COVERS

Made-to-measure stage covers: roof, backdrop and sides, to the dimensions of the truss or structure.

[PLASTOLD.COM/ESCENARIOS](https://plastold.com/escenarios)

- Opaque, light-blocking PVC fabric, in black and other colours.
- Class T2 with certificate: a document local councils often ask for.
- For frequent set-ups: waterproof, with UV protection and anti-mould treatment.
- Replacement covers for stages already installed.

07

SHADE SAILS

Made-to-measure shade sails in waterproof PVC fabric, adapted to the anchor points of each space: walls, posts or existing structures.

[PLASTOLD.COM/TOLDOS-VELA](https://plastold.com/toldos-vela)

- Triangular, rectangular or sets of several pieces.
- Hospitality terraces, hotels and pools, school playgrounds and public spaces.
- UV protection, anti-mould treatment and resistance to oils and greases.
- We copy an existing sail from its measurements, a drawing or the old sail itself.

08

STREET AWNINGS

Fabric panels tensioned between facades to shade shopping and pedestrian streets.

[PLASTOLD.COM/TOLDOS-DE-CALLE](https://plastold.com/toldos-de-calle)

- Each panel made to the actual measurements of the section, in white or other colours.
- Reinforcements and eyelets for tensioning with steel cables.
- For local councils and retailers: quote by section, T2 certificate and fabric data sheet.
- At the end of the season they are usually taken down, cleaned and stored somewhere dry.

NEED TO REPLACE THE COVER?

If the frame of your tent or stage is still in good condition, we make the new cover to measure, keeping the fixing system.

See **replacement covers** on page 6.

REPLACEMENT COVERS FOR ANY TENT

Everything we make is made to order, to each customer's measurements. If your tent frame is still sound, replacing only the cover is the sensible choice: we make replacement covers for tents of any brand.

In 650 g/m² PVC (frequent use) or 850 g/m² (large spans and fixed installations): opaque in several colours, translucent or transparent, with class T2 reaction to fire.

1

YOUR MEASUREMENTS

Taken by following our guide to measuring your tent.

2

A DRAWING OR SKETCH

Dimensioned, of the structure to be covered.

3

THE OLD COVER

Our pattern for cutting and for placing the reinforcements.

KEDER

EYELETS

STRAPS

HOOKS

We reproduce your fixing system so the new cover fits the same profile or rail, with no changes to the structure.

WHAT TO CHECK BEFORE ORDERING

- Keder diameter and position on the side walls, roof panels and gables.
- Type and spacing of the eyelets, or whether the cover is fixed with straps or carabiners.
- Bay width between frames and number of roof sections.
- Eave and ridge heights, which determine the overall size of the cover.

PARTS WE MAKE

- Complete roofs and roof panels, including the gables of two-pitch tents.
- Side walls, front panels and closing curtains.
- Complete covers for pagoda tents.
- Covers for two-pitch marquees, industrial structures and stages.
- Individual parts, when only a damaged side wall or gable needs replacing.

DO YOU RUN A TENT FLEET?

We keep the measurements of each structure on file to speed up your replacement orders, with no need to measure again each time.

MANUFACTURING LEAD TIME

It depends on the size of the cover and the workshop's workload. We confirm it with your quote.

[PLASTOLD.COM/LONAS-DE-REPUESTO-PARA-CARPAS](https://plastold.com/lonas-de-repuesto-para-carpas)

OUR PVC FABRICS

PVC-coated polyester fabric, in 650 and 850 g/m², made up to measure or supplied in full rolls.

FABRIC	TYPICAL USE
Opaque	In white and other colours: the most common choice for tent and awning covers, and for stages.
Translucent	Lets light through while keeping the protection of the cover: for events with natural light.
Transparent	Clear PVC for windows and enclosures where full visibility is required.
Stretch	Elastic fabric for Bedouin tents and free-form installations.

650 g/m²

For event tents, hire and frequent set-ups, and for side walls or tents used seasonally.

850 g/m²

For large spans, industrial use and permanent or weather-exposed installations.

WATERPROOF

UV PROTECTION

ANTI-MOULD TREATMENT

RESISTANT TO OILS AND GREASES

T2

REACTION TO
FIRE

Class T2 under the European standard UNE-EN 15619, tested to EN 14115. The scale runs from T1, the most demanding, to T4.

We supply the certificate with the material: it is the document you may be asked for at events, in tents open to the public or for council permits.

PVC FABRIC BY THE ROLL

FABRIC	WIDTH	LENGTH	USE
Opaque PVC	2.5 – 3 m	100 m	Tents and stages
Stretch	2.5 – 3 m	100 m	Bedouin tents
Transparent PVC	1.4 – 1.6 m	100 m	Windows and enclosures
Translucent PVC	1.4 – 1.6 m	100 m	Covered events with natural light

To order rolls, tell us the fabric, colour, width and number of metres. If you need less than a full roll, tell us about your case when you request a quote. [PLASTOLD.COM/BOBINAS](https://plastold.com/bobinas)

SHIPPING TO SPAIN AND EUROPE

We manufacture in Málaga and ship throughout Spain and the rest of Europe.

1

QUOTE

Free, with no obligation. With it we confirm the manufacturing lead time.

2

MANUFACTURING

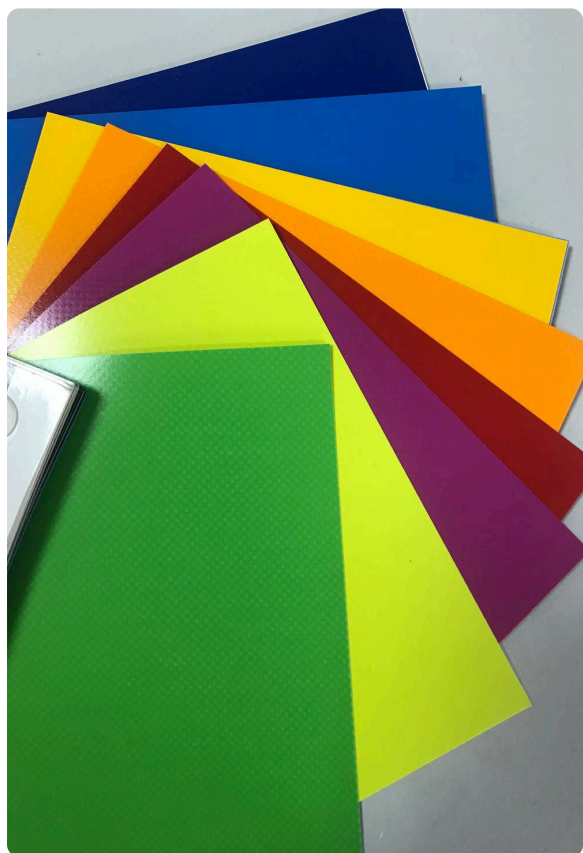

At our premises in Málaga, made to your order.

3

TRANSPORT

We make your cover in a couple of days at most, plus the pallet transport time to your country. We confirm the exact lead time with your quote.

Need help with installation? Depending on the project, we can send a team to install the covers (ask when you request your quote).

FREE SAMPLE BOOK FOR PROFESSIONALS

Feel the fabric before you decide. We send professionals a free sample book with our fabrics and colours within **48-72 working hours**.

- Opaque PVC in 650 g/m² and 850 g/m²
- Translucent PVC and transparent PVC
- Stretch fabric for Bedouin tents
- Colour range for each finish

For tent hire companies, installers, tent and awning makers, hospitality, local councils, event organisers and architecture practices. The form accepts addresses in other countries.

Request it at
plastold.com/muestrario-lonas-pvc
 with your company details and delivery address.

REQUEST YOUR QUOTE

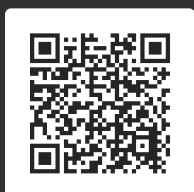

Free and without obligation. To prepare it, please tell us:

- 1 **Which cover you need:** full set, roof or walls only, awning or rolls.
- 2 **Measurements** of the tent or of the area you want to cover.
- 3 **Intended use:** events, hire, industry, agriculture...
- 4 **Where and when** you need it.
- 5 **Photos** of the frame or of the old cover, if you have them.
